- Immunoblotting of sera from healthy females and patients with *Candida* vaginitis, 281
- Iron assimilation in *C. neoformans*, 443
- Keratinomyces ceretanicus*—synonymy of, with *T. ajelloi*, 327
- Laboratory acquired sporotrichosis, 169
- Leukemia—*P. boydii* infection in, 79
- Melanin—inhibitory effect of, on interaction of *F. pedrosoi* with mammalian cells, 265
- Mice—fatal systemic candidosis in, 219
granulocyte colony stimulating factor and resistance to opportunistic fungi in, 293
- Microfermentation test for identification of yeasts, 323
- Microsporium gypseum* complex in man and animals, 301
- Morphology and cyclic adenosine 3',5'-monophosphate in *C. albicans*, 35
- Mouth—morphotyping of *C. albicans* from, 477
quantitation of *C. albicans* from, 477
- Murine coccidioidal meningitis treatment with—amphotericin B, 377
amphotericin B lipid complex, 377
Schering 39304, 377
- Mutants of *P. brasiliensis* affected in dimorphism, 51
- Mycelial form of *C. immitis*, 249
- Mycological findings in feline immunodeficiency virus in cats, 257
- Myeloperoxidase system products—inefficient generation by human neutrophils in *B. dermatitidis* infection, 233
- Nationwide survey of clinical laboratory methods for fungal infections, 153
- Nomenclature of fungal diseases, 1
- Opportunistic fungi—resistance of mice to, by granulocyte colony stimulating factor, 293
- Paracoccidioides brasiliensis*—activation of human complement by, 317, 481
deposition of human complement on yeast cell surface of, 481
effect of cytokines on killing of, 161
killing of, by pulmonary macrophages, 161
mutants of, 51
pulmonary fibrosis in mice by, 173
source of growth promoting factors on plating efficiency of, 261

- Paracoccidioidomycosis—activation of human complement system in, 317
- Peripheral tissue clearance during fungemia, 471
- Phospholipid composition of *C. albicans* yeasts and mycelium, 355
- Phospholipid distribution in *C. albicans* yeasts and mycelium, 355
- Plasma (1-3)- β -D-glucan—measurement of, in deep-seated mycoses, 275
- Plating efficiency of *P. brasiliensis*—source of growth promoting factors on, 261
- Polynucleotide probe for distinguishing *C. albicans* strains, 123
- Preservation of *A. fumigatus*, 485
- Pseudallescheria boydii*—infection during leukemia, 79
- Pulmonary fibrosis in mice by *P. brasiliensis*, 173
- Pulmonary macrophages—killing of *P. brasiliensis* by, 161
- Rat lung cell cultures—interaction of *C. neoformans* with, 115
- Scedosporium inflatum*—experimental infection with, 413
- Schering 39304 in treatment of murine coccidioidal meningitis, 377
- Serum proteins—interaction of, with terbinafine, 451
- Sporotrichosis—laboratory acquired, 169
- Sporothrix schenckii*—effect of calcium ions on germination of, 185
filamentous form of, 403
- Stress protein synthesis in *H. capsulatum*, 385
- Synergistic postantifungal effect of flucytosine and fluconazole on *C. albicans*, 197
- Synonymy between *K. ceretanicus* and *T. ajelloi*, 327
- Terbinafine—interaction of, with serum proteins, 451
- Transport of amino acids in *C. albicans*, 27
- Trichophyton ajelloi*—synonymy of, with *K. ceretanicus*, 327
- Trichophyton mentagrophytes*—dormancy of arthroconidia of, 409
germination of, on human stratum corneum, 145
- ura5* and *ura3* mutants of *C. neoformans*, 61
- Yeasts—identification of, with a microfermentation test, 323
- Zygomycosis with—*A. corymbifera*, 399
A. elegans, 83
in AIDS, 399
